

AUTOMATED FORKLIFTS (AGV'S)

The safer and smarter option for repetitive pallet movements

Boost your efficiency the safer way with AGV pallet transport.

Designed to handle repetitive pallet movements with safety and precision our AGV's delivers up to 60% savings on simple pallet transfers.

Working through repetitive movements 24/7 – 365 days a year, it frees up your team for more complex tasks. With quick installation, no labour costs, and a short payback period, AGV's are a safer, smarter way to move pallets and keep production flowing efficiently.

NSAI

Enterprise

QUALITY
ISO 9001:2015
NSAI Certified

Benefits

- 60% cost savings on repetitive pallet movements
- Improved safety and workplace efficiency
- 24/7 for maximum uptime
- No labour costs
- Short payback period
- Simple installation

Applications

- 12-16 pallets per hour
- Production, warehouse areas
- Ideal for repetitive A/B transfers
- Reduces manual handling
